

Akobir Ziyodullayev

Frontend Mentor / Frontend Developer

Tashkent, Uzbekistan • +998 99 547 62 02 • akobirjsdev@gmail.com • github.com/Ziiyodullayevv

Frontend Developer and JavaScript Mentor with hands-on experience building responsive web applications and teaching modern frontend development to 500+ students. Skilled in JavaScript, TypeScript, React, Next.js, React Native, Redux, Tailwind CSS, REST API integration, DOM, async programming, and clean code practices. Experienced in creating practical learning tasks, real-world projects, and helping students improve problem-solving, frontend architecture, and interview preparation skills. Uses AI-assisted development tools such as Claude and Codex for faster prototyping, debugging, refactoring, and improving development workflows.

WORK EXPERIENCE

Frontend Mentor

August 2023 - Present

Mars IT, Tashkent, Uzbekistan

- Mentored 500+ students in JavaScript, DOM manipulation, events, async/await, promises, array/object methods, React, TypeScript, and frontend project development.
- Designed practical coding lessons, mini-projects, and real-world tasks to help students build strong frontend fundamentals and problem-solving skills.
- Taught students how to build responsive interfaces using HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, and REST API integration.
- Reviewed student code, explained debugging strategies, and improved code quality through clean code principles, reusable components, and better project structure.
- Prepared students for frontend interviews by practicing JavaScript fundamentals, algorithmic thinking, complexity analysis, HashMap, Two Pointers, and common React questions.
- Used AI tools such as Claude and Codex to demonstrate modern development workflows, prompt engineering, code refactoring, and faster project planning.

SELECTED PROJECTS

Mock4IELTS | Frontend Developer | [mock4ielts.uz](#)

- Worked on a modern IELTS practice platform focused on mock exams, section-based practice, learning flows, and student progress experience.
- Built responsive frontend screens, reusable UI components, API-driven pages, and structured navigation for exam-style practice.

Lunch Drop | Frontend Developer | [lunchdrop.uz](#)

- Worked on a corporate food management platform connecting companies, kitchens, and employees in one digital ordering workflow.
- Developed responsive role-based interfaces for company management, menu flow, employee ordering, order tracking, and status visibility.

GitHub Projects & Coding Practice | JavaScript / React / Next.js | [github.com/Ziiyodullayevv](#)

- Maintained frontend practice projects and coding repositories focused on JavaScript, TypeScript, React, Next.js, and algorithmic problem solving.

SKILLS & TOOLS

Technical Skills: JavaScript, TypeScript, React, Next.js, React Native, Redux, Tailwind CSS, REST API, HTML5, CSS3, Git, Vite

Frontend Concepts: DOM, Events, Async/Await, Promises, Array/Object Methods, Component Architecture, State Management, API Integration, Clean Code

AI Development Tools: Claude, Codex, AI-assisted debugging, AI-assisted refactoring, prompt-based development workflow

Mentoring Skills: JavaScript Mentoring, Lesson Planning, Code Review, Project-Based Learning, Interview Preparation, Algorithmic Thinking
